

H&C Tool Supply is dedicated to working with manufacturing clients to bring the best products and services for CNC tooling and industrial fastener applications.

Tool Supply Corp.

SERVICES

APPLICATION ENGINEERING

If you are experiencing reduced productivity through production bottlenecks and a total lack in efficiency, let the H&C team help you improve your bottom line in time and materials.

VENDOR MANAGED INVENTORY

Solve your worst inventory problem - costly mistakes.

Many companies are under pressure to lower inventory, without affecting productivity. As a solution to this challenge our best customers have established a partnership with us to manage their inventory and supply their products on-demand through our Vendor Managed Supply (VMI) service.

FLUIDS MANAGEMENT

- Fluid Charging
- In-House Testing Laboratory
- Filtering Systems for Longer Fluid Life
- Cleaners and Absorbants
- Way-Oils

TOOL VENDING SOLUTIONS

ToolBoss machines have many advantages for your current tool management needs. 1st, 2nd, and 3rd shifts can access tools and retool machines without a Tool Crib manager, eliminating down time. You can control inventory through accountability and traceability, while allowing more than one person access to the necessary tools for operations.

WEB ORDERING & CUSTOM SOLUTIONS

Let us create a site customized to your needs. We will build an easy-to-access interface already loaded with your company part numbers and frequently ordered items.

Have your tools and supplies ready to order with the click of a button. Quick and easy to use, this service saves time and reduces paperwork.
